LOIRE VALLEY—MUSCADET

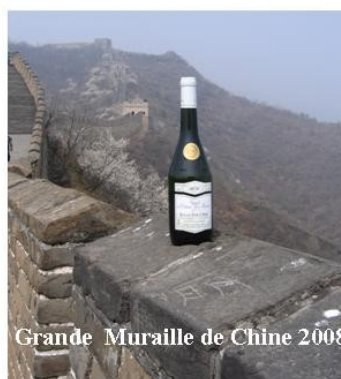

## ***CHRISTIAN & PASCALE LUNEAU*** ***CHÂTEAU DE BOIS BENOIST***

*An estate belonging to the LUNEAU family in the Vallet area, marked by the war of Vendée, it consists mainly of old vineyards. This great vineyard produces a Muscadet on lees with a nice-gold colour, pleasantly fruity and deliciously flavoured.*

*Fresh and large tasting it is a worthy representative of this “on lees winemaking”.*

*The Nantaise bottle was created at the end of 1960's by wine producers and merchants who wanted to give a certain image to the best of their “Muscadet” production. Certain works of art and publications in limited quantities are numbered. The same applies to the Nantaise Bottle which, after meticulous quality controls, receives a numbered back label which is “GARANTEED”. The strict controls and conditions created by the experts of the region, true judges in the art of selection, give the Nantaise Bottle its real validity and prestige. The consumer is given the opportunity of enjoying the “finest of the fine”*
